### **DETAILED ACTION**

1. This communication is in response to the Pre-Brief Conference decision made on 10/07/2009.

After thorough search and examination of the present application and in light of the prior art made of record, claims 1, 4, and 26-28 (renumbered as 1-5) are allowed.

Claims 2-3 and 5-25 have been cancelled.

### ***Reason for Allowance***

2. The prior art made of record does not teach or fairly suggest the combination of elements, as recited in independent claims 1, 27 and 28.

More specifically, the prior art of records does not specifically suggest the combination of "using the programmatically-determined current context and at least one of the programmatically-determined content types to consult a lookup component which obtains at least two query parameter names to display on the programmatically-built query user interface; programmatically identifying, for each of the obtained query parameter names, at least one selectable query qualifier corresponding thereto, wherein each of the selectable query qualifiers indicates a particular comparison to be performed when subsequently comparing selected ones of the content values to that query parameter name; programmatically building a plurality of query parameters by associating, with each of the obtained query parameter names, each of the at least one programmatically-identified selectable query qualifiers corresponding thereto and each of the at least one programmatically-identified selectable parameter values corresponding thereto; programmatically building the query command to specify, for

Art Unit: 2166

each of the displayed query parameter names, the selected query qualifier and each of the at least one selected parameter values" in combination with all the other limitations in the independent claims 1, 27 and 28.

These features together with other limitations of the independent claim are novel and non-obvious over the prior art of record. The dependent claims 4 and 26 being definite, enabled by the specification, and further limiting to the independent claims, are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
